Fixes in this Release

- Fixed an intermittent system black screen hang doing warm boot

What's New in this Release

- Improved cold boot functionality at low temperature environment
- Improved BIOS setup password management

Known Issues

N/A

Installation and Configuration Instructions

To install the BIOS A09 update, perform the following steps:

1. Download the update and save to the directory location of your choice.
2. Unzip the file to a location on your local drive. This package contains the BIOS payload iX125R1_A09.exe and the TPM firmware TpmFw.cab file.
3. Double-click the installer (iX125R1_A09.exe) and follow the prompts.

Note: TpmFw.cab must be in the same directory with iX125R1_A09.exe. This BIOS update utility will restart the tablet twice. The first reboot updates the BIOS and then the second reboot updates the TPM firmware if needed.

Licensing

Refer to your applicable end-user licensing agreement for usage terms.
