

Zebra Picking Plus

BE CONNECTED FROM THE ENTERPRISE EDGE TO THE CLOUD

Connect your fleet of devices to sync with your back-end database as your workers complete tasks. The Zebra Picking Plus API (Application Programming Interface) streamlines inbound, outbound and within warehouse tasks, saving time and reducing human error through integration with SAP EWM Cloud, enabling real-time database updates from your Zebra mobile device.

Picking Plus Features

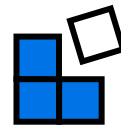

Greater Efficiency

Automatic database updates from your device upon task completion translates to less time spent logging, and more time spent doing.

Easy to Adopt

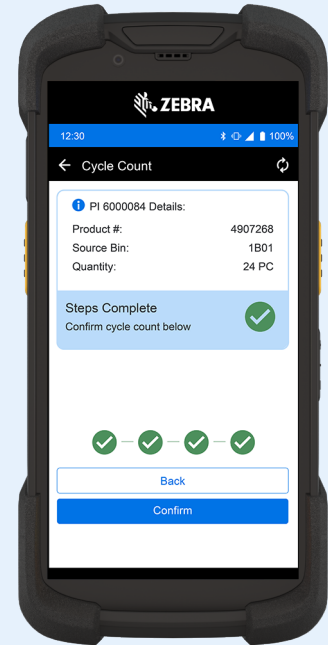

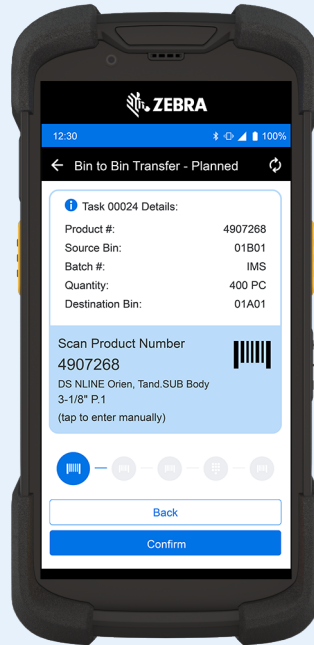

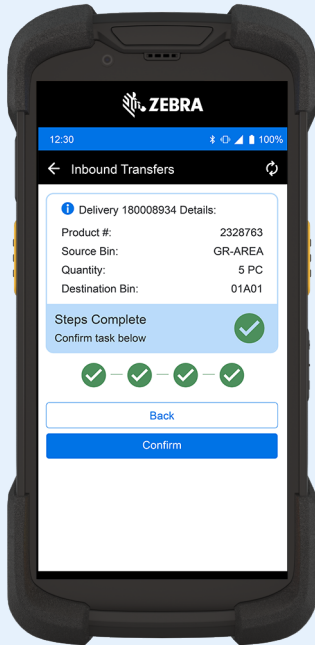

Zebra Picking Plus API comes with an open-source sample web application for customers to adopt, develop and use. Simplify onboarding and train new workers with no prior database experience within minutes.

Immediate Operational Insights

Seamless integration with SAP EWM Cloud means industry-leading Zebra devices support your transformation to smarter warehouse operations that benefit from better uptime, security and management.

Picking Plus Features (cont.)

Easy To Use

Connecting your Zebra device ecosystem to SAP is simple—with the API, your devices are dialed into world-leading SAP APIs so you can start automating highly repetitive tasks immediately.

Easy To Manage

Quickly connect every mobile device in your network to SAP EWM Cloud. With this API set, you can add a new device to your network quickly and easily with plug-and-play deployment for a number of pre-configured use cases.

Easy To Scale

Zebra Picking Plus supports Zebra's extensive portfolio of industry-leading mobile devices, controlling up to thousands of readers from a single platform enterprise-wide, regardless of where they are located.

Leverage full device capability and the power of SAP to bring a new level of efficiency to your operations with Zebra's Picking Plus API.
