

Unveiling the WT5400

...the purpose-built wearable computer for retail workflows

What do you get when you invest in the WT5400?

A right-featured and right-priced device that enables your associates to pick online orders, move incoming shipments from dock to stock and restock retail shelves — faster and more accurately.

A user experience in a class of its own...

Unbeatable comfort that only a purpose-built design can deliver

- Low profile makes it easy to reach in tight spaces
- Low center of gravity makes wearing the WT5400 practically effortless
- Perfect sized for any arm — male or female

Optimal display area for maximum productivity

- Large and bright 4.7 in. display
- Associates can view and interact with all the information they need to get the job done

Change batteries on the fly

- Natural movement
- Latch-tested with gloves
- Self-cleaning battery contacts increase battery reliability

Designed for comfort, versatility and productivity

- **Easy scanning with your choice of scanner**
Choose the Zebra Bluetooth scanner that best meets your needs
- **Four versatile mounting options** — single-dial, dual-dial, Velcro and hip mount
- **Upgradeable to Android 17** Always have access to the latest OS features
- **Ultra-fast Wi-Fi 6E** for solid and dependable wireless connections
- **Built for the long run** Waterproof, dustproof, drop-proof, tumble-proof; scratch- and shatter-resistant Corning® Gorilla® Glass
- **Advanced Bluetooth v5.3** Increased energy efficiency, more reliable and secure connections, better audio quality and more
- **Flexible headset support** Choose cordless Bluetooth or corded headsets
- **Boost collaboration with PTT Workcloud Communication** (optional) keeps associates connected with a secure, enterprise-grade communication system
- **Integrated NFC on the device — not the battery**
Easy tap-to-pair to create a total solution with wearable scanners and headsets
- **Zebra DNA** Simplify every aspect of device lifecycle for users and IT
